Note: ratings will be updated on rating sheet after this tournament

This Link will not work if you did not join our team. The majority of our group already joined our team, but if you have not please text privately to David.

Questions

Q: My opponent (the person I am playing against) is not moving. What should I do?

A: Just wait patiently and after a few minutes, the system will automatically give you the win.

Q: I finished my game, but the next game is not starting. What should I do?

A: The system is taking some time finding another player to play against. Wait a couple of minutes and eventually the system will find a player.

Q: What do I do when I have a question during our tournament?

A: To minimize any distractions for other players, please text your question in the zoom chat privately to David. I will try to answer them for you.
